(TYPE OR PRINT)

Mallinckrodt Inc
2703 Wagner Place
P O Box 5840
Maryland Heights, MO 63043

Telephone: (314) -654-2000

3. REPORTING FACILITY (List all locations where animals were housed or used in actual research, testing, or experimentation, or held for these purposes. Attach additional sheets if necessary)

FACILITY LOCATIONS (Sites) - See Attached Listing

REPORT OF ANIMALS USED BY OR UNDER CONTROL OF RESEARCH FACILITY (Attach additional sheets if necessary or use APHIS Form 7023A)

A. Animals Covered By The Animal Welfare Regulations	B. Number of animal being bred, conditioned, or held for use in teaching, testing, experiments, research, or surgery but not yet used for such purposes.	C. Number of animals upon which teaching, research, experiments, or tests were conducted involving no pain, distress, or use of pain-relieving drugs.	D. Number of animals upon which experiments, teaching, research, surgery, or tests were conducted involving accompanying pain or distress to the animals and for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.	E. Number of animals upon which teaching, experiments, research, surgery or tests were conducted involving accompanying pain or distress to the animals and for which the use of appropriate anesthetic, analgesic, or tranquiliz- ing drugs would have adversely affected the procedures, res- ults or interpretation of the teaching, research, experiments, surgery, or tests. (An explanation of the procedures producing pain or distress in these animals and the reasons such drugs were not used must be attached to this report)	F. TOTAL NUMBER OF ANIMALS (COLUMNS C + D + E)
4. Dogs					
5. Cats					
6. Guinea Pigs		172			172
7. Hamsters					
8. Rabbits		88			88
9. Non-human Primates					
10. Sheep					
11. Pigs					
12. Other Farm Animals					
13. Other Animals					

ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary in brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all the exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

APHIS Form 7023 Column E Explanation

This form is intended as an aid to completing the APHIS Form 7023 Column E explanation. It is not an official form and its use is voluntary. Names, addresses, protocols, veterinary care programs, and the like, are not required as part of an explanation. A Column E explanation must be written so as to be understood by lay persons as well as scientists.

1. Registration Number: 43-R-0002

2/3. Species (common name) & Number of animals used in this study:

Rabbits (43)

4. Explain the procedure producing pain and/or distress.

Explanations for ?E? Pain Classification - USDA/APHIS year 10/01-9/02

5. Provide scientific justification why pain and/or distress could not be relieved. State methods or means used to determine that pain and/or distress relief would interfere with test results. (For Federally mandated testing, see Item 6 below)

Explanations for ?E? Pain Classification - USDA/APHIS year 10/01-9/02

6. What, if any, federal regulations require this procedure? Cite the agency, the code of Federal Regulations (CFR) title number and the specific section number (e.g., APHIS, 9 CFR 113.102):

1. Registration Number: 43-R-0002 / 1518

2/3. Species (common name) & Number of animals used in this study:

Rabbits (43)

4. Explain the procedure producing pain and/or distress.

Explanations for ?E? Pain Classification - USDA/APHIS year 10/01-9/02 During the USDA animal year of October 1, 2001 through September 30, 2002, 44 rabbits were used in tests causing pain or distress. Twelve rabbits used in Eye Irritation testing received the ?E? pain classification. Six rabbits were used in an Eye Irritation study in which all six rabbits exhibited chemosis, redness and opacity after only an hour of exposure. Since the pain relieving medication we had available has a relatively short effective period, we chose not to use it and instead rinsed out the test sample from the test eyes (with warm sterile saline) at the one hour time point, instead of the required 24 hour time point. Even though the test material did not remain in the eyes for the required 24 hours, the sample was deemed to be an eye irritant. On a different sample, six rabbits exhibited chemosis and redness within 1 hour of instillation. These reactions lasted 4 days. This sample resulted in a Toxicity Category II label. Twenty-four rabbits used in Primary Dermal Irritation tests received the ?E? pain classification. Six rabbits had erythema scores of 4 at Day 7 and did not appear to be in pain. These scores returned to zero and 1 by Day 14. Twelve rabbits, although they did not exhibit signs of pain or distress, received the ?E? pain classification based on the severe erythema and necrosis reactions observed during the test period. Six different rabbits had irritation scores of moderate erythema during their test but also did not appear to be in pain. ?E? pain classification designated on severity of irritation scores verses sign of pain/discomfort, to be on the conservative side. Eight rabbits on the Pyrogen test received the ?E? pain classification. Three rabbits were used in pyrogen tests involving a product that resulted in exposed raw skin at the ear's injection site. It has also been noted that if the product is not fully injected intravenously, and infiltrates into the surrounding tissue of the ear, that necrosis of the injection area may occur. Care is taken to ensure that the needle has proper intravenous placement, that the product does not drip onto the ear and that the ear is properly occluded following the sample injection. Five rabbits were either found dead or were euthanized within a couple of days of completing the Pyrogen test on either the active or placebo of a particular product. (The rabbits which were euthanized were done so due to their pale eyes, loss of appetite and lethargy.) The pyrogen tests, USP 24 <151> and 21 CFR 610.13 do not allow for the administration of pain-relieving drugs due to their potential to interfere with the test. Written by: [REDACTED] Acknowledged by: [REDACTED]

Chairman Anne Pickles, Vice President, General Manager Institutional Officer

5. Provide scientific justification why pain and/or distress could not be relieved. State methods or means used to determine that pain and/or distress relief would interfere with test results. (For Federally mandated testing, see Item 6 below)

BOEHRINGER INGELHEIM ANIMAL HEALTH INC
2621 N BELT HWY
ST JOSEPH, MO 64506

3. REPORTING FACILITY (List all locations where animals were housed or used in actual research, testing, teaching, or experimentation, or held for these purposes. Attach additional sheets if necessary.)

FACILITY LOCATIONS(sites)

SITE1
ST JOSEPH, MO 64506

REPORT OF ANIMALS USED BY OR UNDER CONTROL OF RESEARCH FACILITY (Attach additional sheets if necessary or use APHIS FORM 7023A)

A. Animals Covered By The Animal Welfare Regulations	B. Number of animals being bred, conditioned, or held for use in teaching, testing, experiments, research, or surgery but not yet used for such purposes.	C. Number of animals upon which teaching, research, experiments, or tests were conducted involving no pain, distress, or use of pain- relieving drugs.	D. Number of animals upon which experiments, teaching, research, surgery, or tests were conducted involving accompanying pain or distress to the animals and for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.	E. Number of animals upon which teaching, experiments, research, surgery or tests were conducted involving accompanying pain or distress to the animals and for which the use of appropriate anesthetic, analgesic, or tranquilizing drugs would have adversely affected the procedures, results, or interpretation of the teaching, research, experiments, surgery, or tests. (An explanation of the procedures producing pain or distress in these animals and the reasons such drugs were not used must be attached to this report)	F. TOTAL NO. OF ANIMALS (Cols. C + D + E)
4. Dogs		44			44
5. Cats		8			8
6. Guinea Pigs		2057		880	2937
7. Hamsters		1050		5723	6773
8. Rabbits		2055			2055
9. Non-Human Primates					
10. Sheep		582			582
11. Pigs		471			471
12. Other Farm Animals					
Cattle		1093			1093
13. Other Animals					
Horses		64			64
Goats		7			7

ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all the exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

CERTIFICATION BY HEADQUARTERS RESEARCH FACILITY OFFICIAL (Chief Executive Officer or Legally Responsible Institutional official)

I certify that the above is true, correct, and complete (7 U.S.C. Section 2143)

APHIS Form 7023 Column E Explanation

This form is intended as an aid to completing the APHIS Form 7023 Column E explanation. It is not an official form and its use is voluntary. Names, addresses, protocols, veterinary care programs, and the like, are not required as part of an explanation. A Column E explanation must be written so as to be understood by lay persons as well as scientists.

1. Registration Number: 43-R-0014

2/3. Species (common name) & Number of animals used in this study:

Guinea Pigs (880)

Hamsters (5723)

4. Explain the procedure producing pain and/or distress.

(b)(4)

5. Provide scientific justification why pain and/or distress could not be relieved. State methods or means used to determine that pain and/or distress relief would interfere with test results. (For Federally mandated testing, see Item 6 below)

Anesthetic, analgesic or tranquilizing drugs do not exist which would not invalidate the test.

6. What, if any, federal regulations require this procedure? Cite the agency, the code of Federal Regulations (CFR) title number and the specific section number (e.g., APHIS, 9 CFR 113.102):

Agency: APHIS, 9 CFR 113.101

CFR:

APHIS Form 7023 Additional Reported Sites

The following additional sites have been reported by the facility. The reported sites have not been verified by APHIS and have been provided by the facility solely for completeness of the APHIS Form 7023 Annual Reporting submission.

Quintiles, Inc., Kansas City, MO
Registration No. 43-R-0114
2002 USDA Annual Report Column E Explanations

Study PK-847

Species: Rabbit

Number of Animals: 1

Procedure Producing Pain or Distress: A jugular cannulated rabbit struggled during routine blood collection, and died.

Scientific Justification Why Pain or Distress Could Not Be Relieved: Not applicable (study procedure was not anticipated to cause pain and/or distress)

Federal Regulations Requiring the Procedure: Not applicable

Study PK-877

Species: Rabbit

Number of Animals: 1

Procedure Producing Pain or Distress: Rabbit was found with foot caught in cage floor grid and was euthanized.

Scientific Justification Why Pain or Distress Could Not Be Relieved: Not applicable (study procedure was not anticipated to cause pain and/or distress)

Federal Regulations Requiring the Procedure: Not applicable

Study B205 (26Apr02)

Species: Dog

Number of Animals: 1

Procedure Producing Pain or Distress: Dog was found dead in cage, an unexpected reaction to dosing with compound.

Scientific Justification Why Pain or Distress Could Not Be Relieved: Not applicable (study procedure was not anticipated to cause pain and/or distress)

Federal Regulations Requiring the Procedure: Not applicable

Quintiles, Inc., Kansas City, MO
Registration No. 43-R-0114
2002 USDA Annual Report Column E Explanations

Study PK-785

Species: Dog

Number of Animals: 2

Procedure Producing Pain or Distress: Dogs had an unexpected reaction to dosing with compound.

Scientific Justification Why Pain or Distress Could Not Be Relieved: Not applicable (study procedure was not anticipated to cause pain and/or distress)

Federal Regulations Requiring the Procedure: Not applicable

Study PK-903

Species: Dog

Number of Animals: 6

Procedure Producing Pain or Distress: Dogs had an unexpected reaction to dosing with compound.

Scientific Justification Why Pain or Distress Could Not Be Relieved: Not applicable (study procedure was not anticipated to cause pain and/or distress)

Federal Regulations Requiring the Procedure: Not applicable

Study PK-931

Species: Dog

Number of Animals: 4

Procedure Producing Pain or Distress: Dogs had an apparent systemic allergic reaction to vehicle.

Scientific Justification Why Pain or Distress Could Not Be Relieved: Not applicable (study procedure was not anticipated to cause pain and/or distress)

Federal Regulations Requiring the Procedure: Not applicable

PK-934

Species: Dog

Number of Animals: 1

Procedure Producing Pain or Distress: Dogs had an unexpected reaction to dosing with compound.

Scientific Justification Why Pain or Distress Could Not Be Relieved: Not applicable (study procedure was not anticipated to cause pain and/or distress)

Federal Regulations Requiring the Procedure: Not applicable
